Dear Mr. Secretary-General,

The International Green Economy Association (IGEA) is a non-profit organization based on the definition of green economy. The mission of IGEA is to achieve sustainable environmental and economic development, attain economic growth and help build long-term prosperity for the world. We aim to develop the green capital system, green technology system, green policy service system and the green culture system.

I am pleased to confirm that International Green Economy Association(IGEA) supports the ten principles of the UN Global Compact with respect to human rights, labour, environment, and anti-corruption.

With this commitment, we express our intent to advance these principles within our sphere of influence, and will make a clear statement of this commitment to our stakeholders and the general public.*

We also pledge to take part in the activities of the UN Global Compact where appropriate and feasible – through, for instance, participation in Country/Local Networks; involvement in specialized initiatives and workstreams; engagement in partnership projects; and reviewing and providing commentary to participating companies on their Communications on Progress.

Sincerely yours,

Mr. Enoch Deng

General Secretary

International Green Economy Association
