Dear Mr. Secretary-General

I am pleased to confirm that Concordia International Co., Ltd supports the ten principles of the Global Compact with respect to human rights, labour, environmental and anti-corruption. With this communication, we express our latest to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-today operations of our company, and willing to engage in collaborative projects which advance the broader development goals of the United Nations. Concordia International Co., Ltd will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (CoP) that describes our company's efforts to implement the ten principles. We would be much appreciated if you can also guide us in creating COP report as well. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Copact COP policy.

Sincerely yours,

DR. THAN WIN
MANAGING DIRECTOR
