Dear Mr. Secretary-General,

I'm pleased to confirm that Smart Engines Services LLC (hereinafter "Smart Engines") supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this letter, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the corporate culture and daily operations of the company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. "Smart Engines" will make a clear statement of this commitment to our stakeholders and in our communications.

We understand that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles apart from our initial letter of commitment to join the UN Global Compact.
- A description of practical steps (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e.; the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Yours sincerely,
Vladimir Arlazarov
Director General
