I am pleased to confirm that **Korea Overseas Infrastructure & Urban Development (KIND)** supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make these principles part of the strategy, culture and day-to-day operations of our company, and to engage in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

We also pledge to participate in and engage with the UN Global Compact in the following way: By accomplishing our company mission, which is '**Support global infrastructure and urban development for sustainable growth**', we are sure to be a part of the UN Global Compact and support the ten principles of the UN Global Compact

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

We are glad to be the part of global partnership that derives mutual prosperities for sustainable environment and society.
