

H.E. António Guterres
Secretary-General
United Nations
New York, NY 10017
USA

October 26, 2020

Mr. Secretary-General,

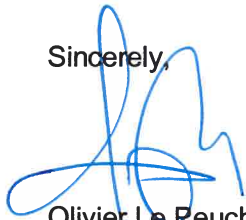

I am pleased to confirm that Schlumberger supports the Ten Principles of the United Nations Global Compact on human rights, labor, environment, and anti-corruption. Our internal processes are well aligned with the Principles and with this communication, we express our intent to maintain focus on each.

Schlumberger is committed to engaging in collaborative projects which advance the broader development goals of the United Nations, and in particular the UN Sustainable Development Goals (SDGs). The UN SDGs and the Ten Principles are core to our focus on social and environmental stewardship as outlined in our yearly Global Stewardship Report available on our website at <https://www.slb.com/globalstewardship/reports.html>. We will continue to publish clear statements in support of the SDGs to our stakeholders and the public. We understand that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress that describes Schlumberger's implementation of the Ten Principles. We commit to reporting our progress within one year of joining the UN Global Compact, and annually thereafter.

The annual Communication on Progress reports will include the following:

- 1) A statement signed by the chief executive expressing continued support of the UN Global Compact, effectively renewing our commitment to the initiative.
- 2) A description of actions taken, and plans implemented to enhance adoption of each of the four areas championed by the UN Global Compact: human rights, labor, environment and anti-corruption.
- 3) A measurement of progress toward targets that are relevant to the four areas.

Sincerely,

Olivier Le Peuch
Chief Executive Officer
Schlumberger Limited
