Dear Mr. Secretary-General,

I am pleased to confirm that Viesgo Infraestructuras Energéticas S.L.U. supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption and, with this communication, we express our intent to implement those principles.

We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

Sustainability is playing an increasing role for both Viesgo and our stakeholders. Managing our assets sustainably, being a transparent company that offers equal opportunities to employees to boost their professional and personal growth, and caring for the environment, health & safety and for the society in which we conduct our business are the cornerstones on which we have built our Sustainability Strategy.

Viesgo will make a clear statement of this commitment to our stakeholders and the general public. We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy.

This communication includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from this initial letter of commitment.

- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,
