Dear Mr Secretary-General,

I am pleased to confirm that E2S Logistics Sdn Bhd supports the Ten Principles of the United Nations Global Compact on human right, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. E2S Logistics Sdn Bhd will make a clear statement of this commitment to our stakeholders and general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways;

- Propose and implement partnership on corporate sustainability and engage with other stakeholders.
- Support UN Global Compact business participants as they implement and report on their sustainability efforts.
- Engage with Global Compact local networks.
- Join and support issue platform and work streams.

We recognize that the key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our organization's efforts to support the implementation of the ten principles and to engage with the UN Global Compact. We support public accountability and transparency and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy.

Sincerely yours,

.....
