Dear Mr. Secretary General,

I am pleased to confirm that the Finland Chamber of Commerce supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

1. As a representative of businesses, we offer sector-specific advice and guidance on key sustainability issues, by developing tools and promoting best practices.
2. As a trusted business voice, we have long engaged with policymakers and other key stakeholders to advance various public policy issues. We will continue to help strengthen key sustainability priorities such as anti-corruption and the rule of law.
3. We will try to mobilize the private sector in support of key development projects by brokering sector-specific partnership projects.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Juho Romakkaniemi
CEO
