Woerden, 26 January 2021

Dear Mr. Secretary General,

I am pleased to confirm that i+solutions, a not-for-profit foundation located in the Netherlands, supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

- We will compensate for CO2 footprint from our travel activities.
- We will demand that transport contractors account for their environmental impact and work towards minimizing it.
- We will include handling of pharmaceutical waste and safe disposal of pharmaceutical waste in our training programs and consultancy work related to medical supply chains.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Ed Monchen
CEO
