Letter of commitment to UN Global Compact

Dear Mr. Secretary-General,

I am pleased to confirm that CETUP supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.  
With this communication, we express our intent to advance those principles within our sphere of influence.

We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals the United Nations, particularly the Millenium Development Goals.  
CETUP will make a clear statement of this commitment to our personnel and the general public.  
We are deeply honored to embrace, support and enact these principles as our contributions in economic, societal and sustainable development have, from the start, been core values of our company.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles.

We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Please find attached general information about CETUP and the name of your future contact in our company.

Sincerely yours,

Jean-Pierre Capossole  
CEO
