New York, NY 10017 USA

Dear Mr. Secretary-General,

REF: Required Commitment Letter for Business Organizations

Today, I come before you with the esteem pleasure of confirming our support of the ten principles of the UN Global Compact. We understand with total clarity the positive impact these goals (*the current goals of the Global Compact*) can have on improving global human rights, labor conditions, our environment; and on promoting anti-corruption.

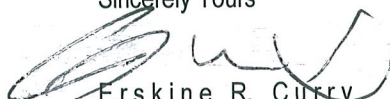

Through this initial communique ECBIZNET, INC expresses its willingness to advance those principles within our real world operations and within the ubiquitous virtual disambiguation of our transnational electronic influences. We're a next-generation information and communications technology strategic partner with a corporate-culture committed to making the Global Compact an essential part of our vision, mission, and values; *-by embedding them into our global go-to-market, standard operational, competitive and end-games strategies*. We seek to daily render a higher quality of service by engaging in collaborative projects which advances the broader development goals of the United Nations, particularly the Millennium Development Goals, ECBIZNET, INC., it directors, officers, employees, stakeholders and key holders intend to make clear by this letter; our 100% commitment to:

- (i) The UN Global Compact and its ten principles;
- (ii) Our openness to engagement in partnerships (*strategic or otherwise*) which advances broad UN goals; and
- (iii) The annual submission of a Communication on Progress (COP).

Also, today as indicated: we especially recognize a key requirements for participation in the UN Global Compact; pursuant to Global Compact COP Policy we're also committed to reporting our progress as thereafter required and to this end, we agree to designate sufficient human/financial resources to the annual submission of a "Communication on Progress" (COP) annual report which describes our company's efforts to implement the ten principles established by the UN Global Compact. Additionally, as you are perhaps aware, ECBIZNET, INC., is a privately held US corporation but admittedly, *our corporate-culture openly supports social responsible investing, public accountability, global market transparency, and promoting sustainable technological-development opportunities which are void of corruption -FOREIGN or DOMESTIC!*

I trust this level of commitment would be the forerunner of a long and mutually pleasant association in due cause for which I thank you.

Sincerely Yours

Erskine R. Curry
Chairman/CEO
