Dear Mr. Secretary-General,

I am pleased to confirm that **MR Informática, S.L.** supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. **MR Informática, S.L.** will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten following principles:

- Businesses should support and respect the protection of internationally proclaimed human rights
- Make sure that they are not complicit in human rights abuses
- Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining
- The elimination of all forms of forced and compulsory labour
- The effective abolition of child labour
- The elimination of discrimination in respect of employment and occupation
- Businesses should support a precautionary approach to environmental challenges
- Undertake initiatives to promote greater environmental responsibility
- Encourage the development and diffusion of environmentally friendly technologies
- Businesses should work against corruption in all its forms, including extortion and bribery

We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and *annually* thereafter according to the Global Compact COP policy.

Sincerely yours,

Mr. José Ramón del Río Cueva
Chief Executive Officer
