Dear Mr. Secretary-General,

I am pleased to confirm that ALGUAS S.L. supports the ten principles of the Global Compact with respect to human rights, labor, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence.

We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals.

As company attached to "Women's Empowerments Principles" a collaborative initiative between Global Compact and UNIFEM (part of UN Women), believe in the important of integrating gender equality and women's empowerment into corporate sustainable policies. We made a big bet by actually contribute to gender equality promoting and facilitating both the incorporation of women to work as reserving for them positions of responsibility, so they can develop work and family life, without having to choose.

ALGUAS S.L. will make a clear statement of this commitment to our stake holders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within 2011 of joining the Global Compact, and annually there after according to the Global Compact COP Policy

Sincerely us,

ALGUAS
