Dear Mr. Secretary-General,

I am please to confirm that the Central Asia Development (CADG) Group and associated companies supports the ten principals of the Global Compact with respect to human rights, labour, environment and anti-corruption.

With this communication, we express our intent to advance these principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our companies and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals, CADG will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our companies efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact COP policy.

Sincerely yours,

Raju Shaulis
CADG President
