Dear Mr. Secretary-General,

I am pleased to confirm that Campbell Soup Company supports the ten principles of the Global Compact with respect to human rights, labor, the environment and anti-corruption. With this communication, we express our intent to advance those principles within our company and in our business relationships. We are committed to reflecting the Global Compact and its principles as part of the strategy, culture and day-to-day operations of our company, and to engaging in projects which will help advance broader development goals of common priority to our company and the United Nations, such as the Millennium Development Goals focused on hunger, child health, equality and sustainability. Campbell Soup Company will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit that as part of our reporting on social responsibility, we will report on our efforts to implement the principles within two years of joining the Global Compact and regularly thereafter.

Sincerely yours,
