Brussels, June 7<sup>th</sup>, 2012

Dear Mr. Secretary-General,

I am pleased to confirm that **WorldPC** supports the ten principles of the **UN Global Compact** with respect to human rights, labour, environment, and anti-corruption. With this commitment, we express our intent to advance these principles within our sphere of influence, and will make a clear statement of this commitment to our stakeholders and the general public.

WorldPC was founded by Close the Gap, a participant of the Global Compact since 2010 and member of the general assembly of the Belgian network of United Nations Global Compact. Close the Gap was looking for a sustainable solution for the end of life management of the computer assets used in Close the Gap projects with respect to a zero-waste-to-land policy. WorldPC was established in direct response to this need.

We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our organization, and to engaging in collaborative projects which advance the broader development goals of the United-Nations and particularly the Millennium Development Goals.

We also pledge to take part in the activities of the UN Global Compact where appropriate and feasible – through, for instance, participation in Country/Local Networks; involvement in specialized initiatives and workstreams; engagement in partnership projects; and reviewing and providing commentary to participating companies on their Communications on Progress.

Sincerely yours,

Olivier Vanden Eynde  
Managing Director
