Dear Mr. Secretary-General,

I am pleased to confirm that Ecolab Inc. supports the ten principles of the Global Compact with respect to human rights, labor, environment and anti-corruption.

Ecolab is the global leader in water, hygiene and energy technologies and services that provide and protect clean water, safe food, abundant energy and healthy environments. Our company delivers comprehensive programs and services to the food, energy, healthcare, industrial and hospitality markets in more than 160 countries.

With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company. We also are committed to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. Ecolab will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Sincerely,

Doug Baker  
Chairman of the Board and  
Chief Executive Officer
