Dear Mr Secretary-General,

I am pleased to confirm that An Meá supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

With this communication, we express our intent to advance those principles within our sphere of influence and integrate them into Our Business Principles and Board-level decision making. We are committed to making the Global Compact and its principles part of An Meá's strategy, culture and day-to-day operations. We will seek to engage in collaborative projects which promote and advance the broader development goals of the United Nations, particularly the Millennium Development Goals. An Meá will make a clear statement of this commitment to our stakeholders and general public.

We recognise that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Sincerely Yours,

Steve Williams
Managing Director
