Dear Mr. Secretary-General,

I am proud to confirm that AD Plastik Inc. supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

With this letter, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals.

We recognise that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore AD Plastik Inc. commits to report on progress annually thereafter according to the Global Compact COP policy.

Yours sincerely,

Mladen Peroš

Chief Executive
