Dear Mr. Secretary-General,

I am pleased to confirm that Royal Arctic Line supports the principles of the UN Global Compact regarding human rights, labour, environment, and anti-corruption.

With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millenium Development Goals.

Royal Arctic Line will make a clear statement of this commitment to our stakeholders and the general public. We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within the first year of joining the Global Compact, and every year thereafter in accordance with the Global Compact COP policy.

Our pledge to the UN Global Compact reflects our commitment to support the social development in Greenland and the protection of the unique Arctic climate.

Sincerely,

**Royal Arctic Line A/S**
