Dear Mr. Secretary-General,

I am pleased to confirm that Mahroz Textile Industries supports the ten principles of the Global compact with respect to human rights, labor, and environment and anti-corruption.

With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to be engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. Mahroz Textile Industries will make a clear statement of this commitment to our stakeholder and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to Global compact policy.

Sincerely yours,

M. Shahid Rashid
