Dear Mr. Secretary-General,

I am pleased to confirm that *Sustainalytics* supports the United Nations Global Compact and its ten principles concerning labour, human rights, anti-corruption and environmental protection. With this letter, we express our intent to advance those principles within our sphere of influence. *Sustainalytics* is committed to making the Global Compact and its principles part of our company's strategy, culture and day-to-day operations. We will also engage in collaborative projects which advance the United Nation's broader development goals, particularly the Millennium Development Goals. *Sustainalytics* will make a clear statement of this commitment to our stakeholders and the general public.

For more than 20 years, *Sustainalytics* has promoted responsible business practices through our products and services, including a UN Global Compact Compliance offering. We are also working with the Global Compact team to create an index of Global Compact leaders. As *Sustainalytics* focuses on strengthening our corporate culture this year, it's increasingly important that we communicate our sustainability efforts to our stakeholders. One way of achieving this is by becoming a member of the United Nations Global Compact.

We recognize that a key membership requirement in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. *Sustainalytics* supports public accountability and transparency, and therefore we commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Sincerely yours,
