Dear Mr Secretary General,

I am writing with regard to the Global Compact and my company's desire to become part of this initiative. Upon review of the ten principles I am pleased to say that as an organization VSC Security Solutions agree with all of the principles with respect to human rights, labour, the environment, and anti-corruption. With this in mind we would like to promote these values within our sphere of influence in the Kurdistan region of northern Iraq. We are committed to practicing our business in such a way as to engage the local community and wider region as a whole in collaborative projects that promote not only the ten principles, but also the wider goals of the United Nations, paying particular attention to the Millennium Development Goals. VSC Security Solutions will make a clear statement of this commitment to our stakeholders and clients, as well as the general public.

We are aware that participation in the Global Compact requires an annual submission of a Communication of Progress (CoP), which outlines our company's implementation of the ten principles through the work that we do. As we are committed to promoting transparency and public accountability, especially in regions such as Kurdistan where this aspect of business is often overlooked, we will commit to producing a report on our progress in implementing the ten principles within a year of joining the Global Compact, and annually thereafter.

Sincerely Yours,

Keith Schuette
Chairman, VSC Security Solutions
