Dear Mr. Secretary-General,

I am pleased to confirm that Sandvik supports the ten principles of the United Nations Global Compact with respect to human rights, labor rights, environment and anti-corruption. With this communication we express our intent to support and advance those principles within our sphere of influence. We commit to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engage in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. Sandvik will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and thereafter on an annual basis according to the Global Compact COP policy.

Yours sincerely,
