Dear Mr Secretary – General

UNGC & International SOS

It is with great pleasure I write to confirm that International SOS supports the ten principals of the United Nations Global Compact Group with respect to human rights, labour, environment and anti-corruption.

With this letter, I wish to express International SOS' commitment to advance those principals within our sphere of influence.

Our own principals and policies are closely aligned with those of the Global Compact Group. We are committed to making these principals part of the strategy and culture of our company.

We look forward to keep engaging in collaborative projects with the UNGC which will advance the broader development goals of the United Nations.

International SOS recognises that a key requirement for participation with the UNGC is the annual submission of a Communication on Progress (COP) that describes our efforts to implement the UNGC principals. As one of the world leading Medical and Security Services companies we pride ourselves of accountability and transparency.

On behalf of the team at International SOS, we would be proud to remain a member of UNGC and support the UNGC on a global and local levels.

Yours sincerely,
Arnaud Vaissie
CEO & Founder
