Dear Mr. Secretary-General,

I am pleased to reconfirm that COPREDIJE supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. COPREDIJE will make a clear statement of this commitment to our stakeholders and the general public.

We also would like to apologize for not submitting a Communication on Progress last year. The main reason is that we had to reorganise our company because of the economic crisis, especially personal resources; and the excess of work was the reason why we could not be able to complete the needed report.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Sincerely yours,

Valentín de Torres-Solanot del Pino

General Manager
