Dear Mr. Secretary-General,

I am pleased to confirm that Turbulent Diffusion Technology Inc. supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our implementation of those principles. We are committed to making the Global Compact and its principles part of the strategy, culture, and day-to-day operations of our company. We will further engage in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. Turbulent Diffusion Technology Inc. will make a clear statement of our commitment to the UN Global Compact to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment, and anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

Dave Brown, President
