H.E. Ban Ki-moon,
Secretary-General, United Nations,
New York, NY 10017, USA

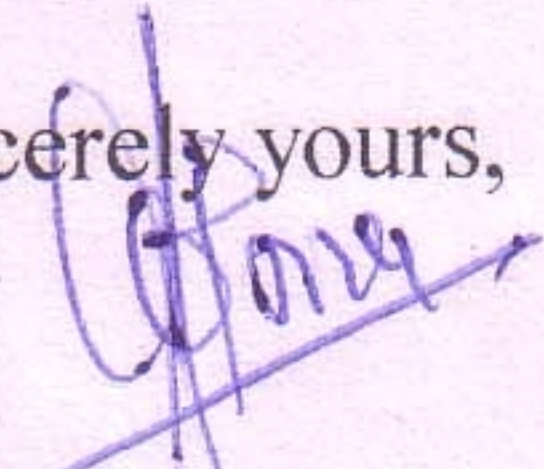

Dear Mr. Secretary-General,

I am pleased to confirm that Dr. Salim Ali Memorial Nature Club (SAMNC) supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence, and will make a clear statement of this commitment to our stakeholders and the general public.

SAMNC, being a national level NGO with the primary objectives of conservation of environment, forest and wild life in India, our activities cover wide spectrum of issues associated with eco-development, environmental protection and wildlife conservation. We undertake projects dealing specifically with air and water pollution, sanitation, rain water harvesting, forest and wetland conservation, garbage recycling, agro forestry, raising nursery for medicinal herbs and animal shelter development with active community participation. We also undertake intensive public awareness campaigns about various aspects of environment and create public consciousness about increase of CO₂ and carbon foot print concept amongst the common people. We believe that our present activities are consonant with the basic premises of both Global Compact principles as well as the Millennium Development Goals. Furthermore we intend to address the concerns raised under 'Principle 8' of the Global Compact's ten principles regarding present state of global environment and 'the goal 7' of the Millennium Development Goals about environmental sustainability by undertaking initiatives to promote greater environmental responsibility among the stakeholders in all our future programs.

Please find attached herewith a basic profile of our organization, as well as the contact details of the focal point for communication with the Global Compact Office.

Sincerely yours,

Brijnath Sharma
President, SAMNC
