Dear Mr Secretary-Genera,

I am pleased to confirm that EHS Global Solutions support the ten principals of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principals within our sphere of influence. We are committed to making the Global Compact and its principal part of the strategy, culture and day-to-day operations of our company, and to engage in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. EHS Global Solutions will make a clear statement of this commitment to our stakeholders and general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a communication on progress (COP) that describes our company's efforts to implement the ten principals. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every year thereafter according to the Global Compact (COP) policy.

Please find attached general information about our company, as well as the contact details of the focal point for communication with the Global Compact office.

Yours sincerely,

Mr Bill Findlay
Chief Executive
