Dear Mr. Secretary-General,

I am writing in order to express the support of alegría activity S.L. of the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

We would like to communicate our intent to integrate these principles within every aspect of our business activities. alegría activity S.L. is committed to making the Global Compact an important part of our company. We will engage in collaborative projects which are focused on advancing the broader development goals of the United Nations, which also encompasses the Millennium Development Goals. alegría activity S.L. will make a clear statement of this commitment to all partners and to the general public.

We are aware that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that will detail our company's actions taken toward the implementation of the ten principles. We, as a company, are in full support of public accountability and transparency, and are committed to report on our progress within one year of joining the Global Compact, and every year after in obedience to the Global Compact COP policy. This COP includes:

- 1.) A duly signed declaration signed by the chief executive of alegría activity S.L. stating our full and continued support for the Global Compact and our desire to renewing our ongoing commitment to the initiative and its principles in addition to our initial letter of commitment to join the Global Compact.
- 2.) A detailed description of actions, procedures and policies applied or soon to be applied in order to fully implement the Global Compact principles in each of the four key areas (human rights, labour, environment, anti-corruption) into our business model.
- 3.) A qualitative and quantitative self-evaluation of our performance upon implementation of said actions stated.

Thank you ever so kindly for your acceptance of our application to the Global Compact.
Yours sincerely,

Juan Jesús Alegría Alonso
