Dear Mr. Secretary-General,

I am pleased to confirm that Chinese American Parent-Student Council supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. We formally support the UN Global Compact and will advance these principles within our sphere of influence and relay our commitment to our stakeholders, youth volunteers, and to the general public.

We also pledge to take part in the activities of the UN Global Compact where appropriate and feasible in the following ways: participation in country/local networks; involvement in specialized initiatives and workstreams; and engagement in partnership projects.

We acknowledge that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE), which describes the organization's efforts in implementing the ten principles. In support of public accountability and transparency, we commit to report on the organization's progress within *two years* of joining the Global Compact and *bi-annually* thereafter.

We look forward to working with you and other participants of the Global Compact network in advancing the ten principles in hopes of building a sustainable and inclusive global economy.

Sincerely,

Yen S. Chou
