As a leading provider of sustainable supply chain solutions, Ecodesk is committed to developing innovative means of helping organisations to drive transparency and sustainability in their value chains.

We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations. Ecodesk will make a clear statement of this commitment to our stakeholders and the general public.

We acknowledge the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles as a key requirement for participation in the Global Compact is.

Ecodesk also supports public accountability and transparency and commits to reporting on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy, including:
