Dear Mr. Secretary General,

I am pleased to confirm that Instituto para la Producción Sostenible (Institute for Sustainable Production) supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to advance these principles within our spheres of influence, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

- Incorporate the Global Compact principles into internal operations and communicate progress following the COP requirements.
- Promote the Global Compact and its principles.
- Provide support for UN Global Compact business participants in their own sustainability implementation and disclosure efforts.
- Attract new participants to the UN Global Compact through our outreach efforts and awareness raising.
- Organize learning and dialogue events, workshops and training for their members on the UN Global Compact and specific topics relevant to corporate sustainability.
- Provide our expertise of our members to Global Compact working groups and special initiatives.
- Engage their members in collective action efforts on Global Compact-related issues
- Host the secretariat for a Global Compact Local Network

We recognize that a key requirement for participation in the Global Compact is the biannual submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within *two years* of joining the Global Compact and *every two years* thereafter according to the Global Compact COE policy.

Sincerely yours,

José Cabrera

President of Institute for Sustainable Production
