Dear Mr. Secretary General,

I am pleased to confirm that **RSE et Développement** supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways:

- **Promote the Global Compact in Francophone Africa**, and more generally in the Francophone world through disseminating information on Global Compact. Such information can be from the Global Compact (such as the bulletin) and from other organisations. This will be achieved with our website [www.RSE-et-PED.info](http://www.RSE-et-PED.info) and our webinars
- **Assessing our organisation impacts** with respect to the UN Global Compact principles, implementing measures for improving these impacts when possible, and communicating transparently about these.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within *two years* of joining the Global Compact and *every two years* thereafter according to the Global Compact COE policy.

Sincerely yours,

Joëlle Brohier Meuter
