New York, NY 10017
USA

Dear Mr. Secretary-General,

I am pleased to confirm that Enact Sustainable Strategies Group AB (Enact) supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption.

Indeed, the vision of our company is *sustainable global development, in which the business sector is a responsible driving force*. We have therefore, since the company was established used Global Compact and its principles as a guiding star in our work.

With this communication, we express our explicit intent to implement those principles. We are committed to continue our efforts of making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. Enact will make a clear statement of this commitment to our stakeholders and the general public.

We recognise that an important requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

A handwritten signature in blue ink, appearing to be "Hans Carlsson". Below the signature is a horizontal line of dots.
