Dear **Mr. Secretary - General**,

We are pleased to confirm that *Manila Doctors Hospital* supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. Manila Doctors Hospital will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the global compact is the annual submission of a Communication on Progress that describes our efforts to implement the ten principles. We support the public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and *annually* thereafter according to the Global Compact policy. This includes:

- A statement signed by the chief executives expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions including disclosure of any relevant policies, procedures, activities that the hospital has undertaken or plans to undertake to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (sustainability report using G4 Global Reporting Initiative indicators)

Sincerely yours,

**HIAN HO N. KUA, M.D.**  
Hospital Director  
Manila Doctors Hospital
