Dear Mr. Secretary-General,

We, WELAND International, would like to show our commitment to support and implement the ten principles of the Global Compact on human rights, labor, environment and anti-corruption. By delivering this letter, we sincerely hope that we can be one of the big family, standing together with other members of the United Nations Global Compact, to make our world a better place for us, our next generation and the next.

WELAND International, a subsidiary of Xueda Group (NYSE: XUE), is a leading education-oriented business organization in China, which founded in 2005. WELAND International owns the largest Model United Nations conference in China. In 2008, our first annual WE Model United Nations Conference was held in Hangzhou, China. The Welcome Letter issued by you for us inspired every delegate, Faculty Advisor and the whole organizing committee. Since then, WELAND International believes everyone matters. 2014 marks our seventh annual session WE Model United Nations EXPO, which the Secretariat of Yale Model United Nations (YMUN), Ivy League Model United Nations (ILMUNC), North American International Model United Nations (NAIMUN), Berkeley Model United Nations (BMUN) and several famous Model United Nations will come to China for their sub-conferences to the entire world, providing platforms to facilitate the youth with care and responsibilities.

Therefore, by taking this opportunity, we are committed to making the Global Compact and its principles into our future business strategies, practices and operations on daily-basis. At the same time, we will obey and make sure the report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes,

1. By rolling-out more creative education programs and continue to support the education for all-round development in China, we will guide and inspire our Chinese young generations by the greatness of the United Nations Global Compact, the development goals of the United Nations, particularly the Millennium Development Goals.
2. In addition, as the pioneer of the market will implement external and internal initiatives (CSR events with partners in China) and measurements to communication with the public and our people in terms of environment protection and business integrity.

In all, we want to be as a really fresh and powerful force to join the United Nations Global Compact with our great sincere and gratefulness.

Best Regards,

Morgan Zhichao LIU
