Dear Mr. Secretary-General:

I am pleased to confirm that Fujitsu Limited supports the ten principles of the Global Compact with respect to human rights, labour rights, the protection of the environment, and anti-corruption.

With this communication, we express our intent to advance those principles within our sphere of influence. We will focus our efforts on making the Global Compact and its principles part of the strategy, culture, and day-to-day operations of our company. We will also engage in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles to our stakeholders and the general public. We support such public accountability and transparency. Therefore, we commit to report on our progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

As a supporter of the Global Compact, we look forward to building a long-term partnership with the United Nations to promote the ten principles around the world.

Sincerely yours,
