Le Président-directeur général

H.E. Ban Ki-moon
Secretary-General
United Nations
New York, NY 10017

Dear Mr Secretary-General,

I am pleased to confirm that ARKEMA supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. These principles are core in our will to make ARKEMA a socially responsible chemical company.

We thus express our willingness to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our Group and to engaging in collaborative projects which advance the broader development goals of the United Nations. Arkema will make a clear statement of its commitment as to inform its stakeholders and the general public.

We recognize that a key requirement for our participation in the Global Compact is the annual submission of a Communication on Progress (COP) describing our company's efforts to implement the ten principles.

We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact and annually thereafter according to the Global Compact COP policy.

Such COP will include the statement expressing our continued support for the Global Compact and commitment to the initiative and its principles, the description of our practical actions to implement the ten principles and a measurement of the outcomes.

Sincerely Yours,

Thierry LE HENAFF
