Dear Mr. Secretary-General,

I am pleased to confirm that 'World Wide Aid and Cooperation' Moldova supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence, and will make a clear statement of this commitment to our stakeholders and the general public.

Working in the development field and being a representative of the civil society in Moldova our organization supports the partnerships between business and non-for profit organizations through Corporate Social Responsibility projects. We are actively involved in the promotion of the Global Compact Principles and encouragement of CSR in the business sector of Moldova as a tool of business involvement in solving community problems. For the next period (2008-2009) we plan to work close with 5 medium and large national companies in several CSR projects in the communities the respective companies activate.

Please find attached general information about our organization, as well as the contact details of the focal point for communication with the Global Compact Office.

Sincerely yours,

Corochii
