Support of the UN Global Compact

Dear Mr. Secretary-General,

I am pleased to confirm that ICUnet.AG supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company. ICUnet.AG will make a clear statement of this commitment to our stakeholders and the general public. We understand that our commitment and subscription to the Global Compact is free of charge and financial contributions are voluntary.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact, and every year thereafter according to the Global Compact COP policy.

Sincerely yours,

Dr. Fritz Audebert
CEO
