Dear Mr. Secretary General,

I am pleased to confirm that Sericulture Research and Development Council support the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti corruption. With this commitment we express our interest to support the Global Compact advancing these principles and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

1. Engage with Global Compact local networks.
2. Join and / or propose partnership projects on corporate sustainability.
3. Engage companies in Global Compact related issues.
4. Join and / or support special initiatives and work streams.
5. Provide commentary to companies on communication on progress (COP).
6. Participate in Global Compact global and local events.

We recognize that a key requirement for participation in the Global Compact is the submission of a communication on progress (COP) that describes our organization's efforts to support the implementation of the ten principles and to engage with a Global Compact. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact and annually thereafter according to the Global Compact COP policy.

Sincerely Yours,

(Rajesh Patel)
Director
