20th February 2015

H.E. Ban Ki-Moon,
Secretary General,
United Nations,
New York, NY 10017 USA.

Dear Mr. Secretary General,

I am pleased to confirm that the Kenya Green Building Society (KGBS) supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anticorruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s): Use of the Global Compact logo and name, attract new participants to the UN Global Compact through KGBS outreach efforts and awareness raising, provide KGBS expertise and/or the voice of their members to Global Compact working groups and special initiatives, engage KGBS members in collective action efforts on Global Compact-related issues, host the secretariat for a Global Compact Local Network, support businesses and other stakeholders in establishing or implementing sustainability initiatives that are transparent and beneficial to the city, region and/or greater community and engaging at the Innovating level – undertaking a multi-year project to address a complex or seemingly intractable issue(s) within the city or region, which is supported by leaders across business, civil society and government.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within *two years* of joining the Global Compact and *every two years* thereafter according to the Global Compact COE policy.

Sincerely yours,

Elizabeth W. Chege
