Dear Mr. Secretary General,

I am pleased to confirm that KMG International supports the ten principles of the Global Compact on human rights, labor, environment, anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. KMG International will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiatives and its principles. This is *separate* from our initial letter of commitment to join the Global Compact.
- A description of practical actions that the company has taken to implement the Global Compact principles in each of the four areas – human rights, labor, environment, anti-corruption.
- A measurement of outcomes, expressed in the Annual Sustainability Report of KMG International, expressing the degree to which the performance targets were met.

Sincerely yours,

Zhanat Tussupbekov  
CEO – KMG International
