COMMITMENT LETTER

I am pleased to confirm that HEALTHY ENVIRONMENT ORGANIZATION IN KURDISTAN (HEOK) supports the then principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment we express our intent to support the global compact advising these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways: (a) arranging seminars and training courses to young leaders from the community, (b) spreading articles through our blog sites to other influencing organizations and supporting projects dealing directly with themes in the frame of the ten principles.

We recognize that a key requirement for the participation in the Global compact is the submission of a Communication on Engagement (COE) that describes our organization's effort to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely

Bestoon Mahmood
President
