Dear Mr. Secretary General,

I am pleased to confirm that De-a Arhitectura Association (*Asociatia De-a Arhitectura*) supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

- to promote in schools the idea of a “quality built environment” as a civic responsibility, with the purpose of increasing the involvement of the future citizens in the planning and design processes that will affect their own living environment.
- to involve and train built environment professionals in an open exchange of ideas and information, an open dialogue with the public.
- to teach children about the use of environmental friendly technologies in buildings and cities.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization’s efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely
yours,
arch. Mina Sava
president
De-a Arhitectura Association
