Dear Mr. Secretary-General,

It is with pleasure that we confirm that SNF Development Center supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this pledge, we commit to supporting the Global Compact advancing these principles, and will make a clear statement of our pledge to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways: engage with global compact local networks, participate in Global Compact global and local events, join and/or support special initiatives and work streams, and engage companies in Global Compact-related issues. In addition to this, we declare our commitment to doing everything in our jurisdiction to uphold the values of the UN Global Compact.

We recognize that a key condition for membership in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely,

Safia Bari
Director
