Dear Mr. Secretary-General,

I am pleased to confirm that Global Support Idea supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the

Millennium Development Goals. Global Support Idea will make a clear statement of this commitment to our stakeholders and the general public. We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes: A statement executive expressing continued support for our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.

A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the each of the four issue areas (human rights, labour, environment, anti-corruption).

A measurement of outcomes targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,
