Respected Sir,

I am pleased to confirm that International Movement for Advancement of Education Culture Social & Economic Development (IMAECSED) supports the ten principles of UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways : by infrastructure development, local capacity-building, education, health, job creation and disaster relief. Beside this spectrum of issues including: climate change, water, transparency, innovative partnerships with business have become a common phenomenon in recent years.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

With best regards

Samir Kumar Das  
Chairman
