Dear Mr. Secretary General

I am pleased to confirm that Ondernemers voor Ondernemers (Entrepreneurs for Entrepreneurs) supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

The mission of the Belgian not for profit organization Entrepreneurs for Entrepreneurs, which was established in 2000, is to promote sustainable economic growth in developing countries. The members of Entrepreneurs for Entrepreneurs are NGOs and private companies that have been approved by the government.

We also pledge to participate in and engage with the UN Global Compact in the following ways:

1. Through our own broad network and communication efforts we will be able to promote the ten principles of the UN Global Compact in an efficient way.
2. We are able to catalyze partnership projects in support of broad development objectives, including the Millennium Development Goals.
3. Through our participation we will be able to invite companies within our Country Network to join partnership projects and to offer our organization as a potential partner to business on specific projects and engage companies in Global Compact-related issues.
4. Our NPO already offers support and participation for enhanced civil society engagement.
5. As a communication platform of NGO's and Business continuous improvement for a sustainable world is our goal.
6. As a registered stakeholder in the UN Global Compact, we will participate, where possible and feasible, in Global Compact global and local events. This is for us an opportunity to bring in our expertise and capacities.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Luc Bonte
